## **DETAILED ACTION**

### ***Drawings***

The objection to the drawings under 37 CFR 1.83(a), as not showing the pair of oscillating rods connected to an end portion of the upper cross member and connected inboard from an end portion of the lower cross member, and the flat legs attached to the lower cross member at opposed side edges (claim 10), has been overcome by Applicant's amendment.

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the casing fixed to the upper cross member and aligned with the outside of the legs of the holding arc and covering the oscillating rods (claim 16) must be shown or the feature(s) canceled from the claim(s). Note that it does not appear that the casing (32) touches the upper cross member (22). No new matter should be entered.

### ***Specification***

The substitute specification filed February 22, 2005 has been entered.

The objection to the abstract of the disclosure has been overcome by Applicant's amendment.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 17 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 17, it is unclear if "a base plate" is intended to be the same feature as the previously set forth "base plate" (see claim 10).

***Allowable Subject Matter***

Claims 10-16 are allowed.

Claim 17 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

***Response to Amendment/Arguments***

Applicant's response filed October 11, 2005 has been fully considered. Remaining issues are outlined in the above sections.

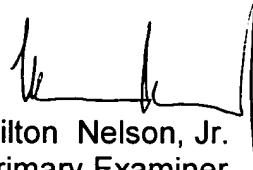

**Conclusion**

This Office action has not been made final since it includes a new grounds of rejection not necessitated by Applicant's amendment.
